

HUNTER 3-D Inc.

Exploring for Oil and Gas with 3-D Seismic Data, Gravity and Magnetics

3-D Seismic Interpretation

- Experience in Deepwater GOM, TX, LA, OK, MS, CA, AK, China, Indonesia, Oman, West Africa.
- Participated in major oil and gas discoveries.
- Integration with synthetics, AVO and attributes.
- This figure shows one of our discovery maps. Drilled in 2002, producing now.

Onshore Texas Prospect Map

Since 1996 we have provided integrated geophysical interpretation services including:

- 3-D seismic interpretation and mapping, prospect generation and field analysis
- 3-D Gravity and magnetics modeling/analysis,
- Seismic inversion, and AVO analysis.
- We also screen deals and evaluate producing properties for investors.
- Ask about our new inversion validation techniques and geostatistical capabilities.

Exploring for Oil and Gas with 3-D Seismic Data, Gravity and Magnetics.
We integrate our results.

Happy Hydrocarbon
Hunting!
